The landing field of the WEIS AN WAGRAU (O 49/R 91) airfield was leased as pasture land. The rent was paid to the FREMS (O 49/R 80) kommandatura. The ruins of former airfield buildings were on the northwestern edge of the airfield. No Soviet soldiers were observed at the field.

Comment:

25X1A Report confirms the condition of the WEIS AN WAGRAU airfield as observed by another source in November 1948. It also shows that there were no indications of intended reconstruction of the field.

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 16 October 1978 from the Director of Central Intelligence to the Archivist of the United States.
